ChampINU

INTRODUCTION

With new ideas and projects launching every day in the world of cryptocurrencies, many ideas get repetitive and may lack uniqueness. Champinu plans to revolutionize the Online Casino industry by introducing unique and brand new games, offering attractive bonuses and the best possible user experience to make customer acquisition easy.

All $CHAMPINU holders indirectly get a share of profits made with our casino Champbet.io. Besides having some of the most rewarding token mechanics and features, Champinu does also offer exclusive staking pools to NFT holders.

Champinu aims to build a complete and growing Ecosystem which provides real utility and real revenue which flows back into the token. We will publish the financial statements of our Casino (Champbet) monthly, the buyback and burn event takes place the same day. We focus on providing full transparency to our community through every step of the project.

ABOUT CHAMPINU

The Champinu Ecosystem is a community driven Project, with branches in the Metaverse and Casino industry. Champinu is building the world's first Community-owned Casino. With some of the most popular game modes amongst gamblers, Champbet will also have unique features to make customer acquisition more simple. Besides having some attractive rakeback and VIP levels on the casino, there will also be unique game modes which no other Casino has.

As for the NFT aspect of ChampInu, we have revealed our first NFTs (more to come soon), these NFTs can be traded, bought, sold and even staked!
We will have some exclusive staking pools which are only accessible for Champ NFT Holders (learn more on page 8). By being a Champ NFT holder, you can also get special bonuses and increased rakeback on our casino, Champbet.io.

Our upcoming P2E Game will be a Metaverse-like universe in which Champs can compete against each other playing different minigames and either betting tokens or whole NFTs.

ROULETTE GAME

Unlike the traditional Roulette table game, the Champbet Roulette game will have 3 options to bet on:

- Gray (2x payout)
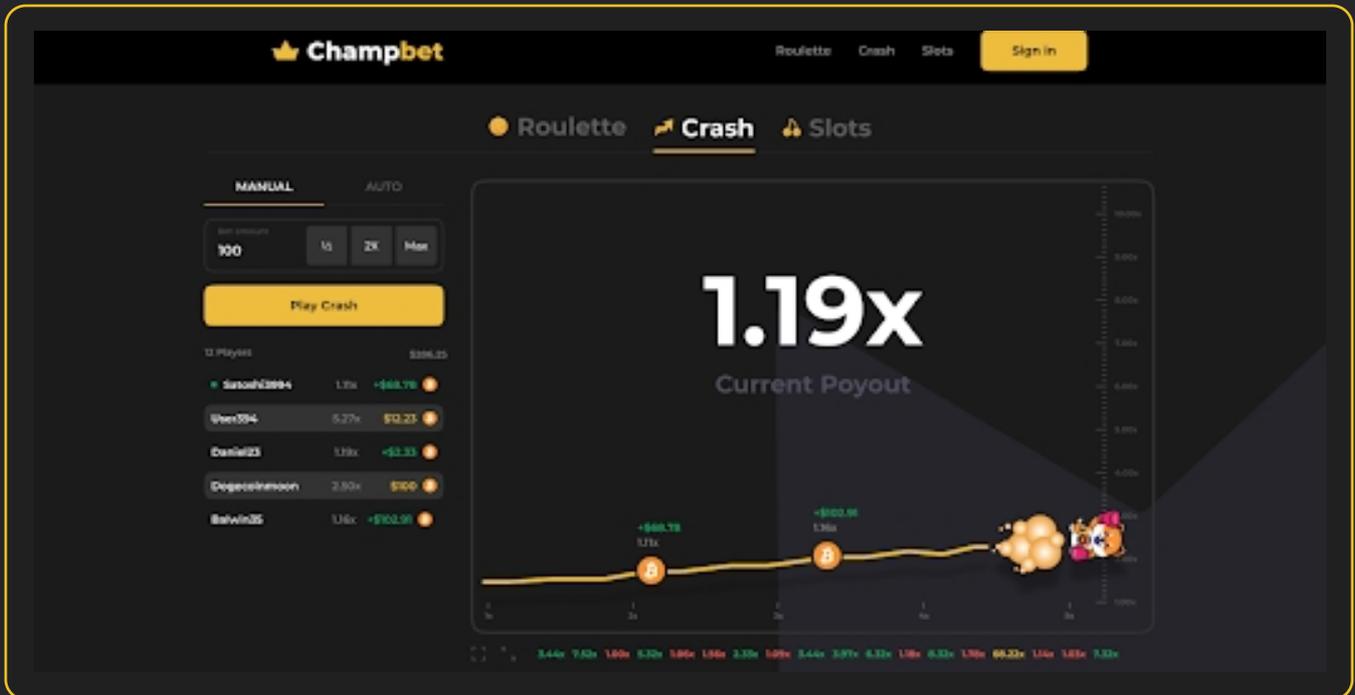

- Blue (2x payout)

- Gold (14x payout)

There are in total numbers from 1 to 100, with there being a 7% chance of hitting Gold and 46.5%~ for it to hit Gray or Blue.

On every round there is a 2% chance that the round turns into a Golden Round. Multipliers are increased from 2x to 4x for gray and blue, and from 14x to 28x for gold.

The traditional Roulette table game has a house edge of 2.7%, whereas our Roulette game will have a house edge of just 1%.

CRASH GAME

The Crash Game has gained massive popularity over the last few years, the rules are simple:

- The player will choose a bet and a winning goal. For example, $10 to win $25 (2.5x multiplier)
- If the graph exceeds the players goal, the bet will automatically be closed at a profit
- If the player selects "0" as winning goal, he will be able to press the Withdraw button whenever
- If the graph "crashes" before the winning goal or a Withdraw takes place, the player loses the bet

The chance of the graph crashing at 1.00x is at 1% which also means that the house edge of the Crash game is 1%.

CRASH GAME

All bets will be placed in USD, it will be possible to deposit $CHAMPINU, Bitcoin, Ethereum, Solana, BNB, XRP and Dogecoin initially. More will follow.

50% of ALL Champbet generated profits, will be spent in buyback and burn events of $CHAMPINU, the casino will underlie open source accounting.

STAKING POOLS

The CHAMPINU staking pool is the main staking pool available to our community. This staking pool has been designed to not only combat inflationary pressures but also reward our investors for holding their tokens over a prolonged period of time. With every buy or sale an X% is rewarded to investors. To put it simply, if you purchase 100 tokens, X of these tokens will be charged to reward stakeholders. Therefore, even though we promote trading, it's to the benefit of all users in the ecosystem to remain in this pool to benefit from transactions in the network. Rewards removed from the staking pool, will however not be charged with a fee. This will allow our investors to claim rewards from the staking pool at their will with no strings attached.

Champinu will host trading competitions and similar events to create spikes in volume in order to offer the best possible (sustainable) APR for staking pool contributors. NFT staking pools will ONLY be available to Champ NFT holders!

NFTS

CHAMP NFTS ARE PART OF THE CHAMPINU ECOSYSTEM:

NFT holders will be able to stake them on our Staking pool and join the exclusive staking pools ONLY available to NFT holders.
Champ holders will also have additional benefits on our casino Champbet.io, you can expect exclusive bonuses and also increased rakebacks on your bets.

In our upcoming P2E game, you will also be able to play different sports-like minigames and bet $CHAMPINU tokens or NFTs (You will need at least 1 Champ NFT to join betting pools against other players)

Champinu will work on releasing new NFTs every other week to meet demand in a conservative way in order to not exhaust buyers and keep a stable price.

Champbet will contribute and help maintain a stable price floor of Champ NFTs by using a percentage of its profits to buy Champs back in order to give those away to VIP players or tournament winners.
